AXIS

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	ENCODERS AXIS M70 AXIS M7104 AXIS P72 AXIS P7304 AXIS Q74 AXIS 291 AXIS Q7920	Axis video encoders give you an easy, cost-effective way to integrate your current analog video system with the latest Axis network video solutions. You'll be able to migrate to network video at your own pace and enjoy the benefits of IP immediately, while maintaining the value of your investment in analog equipment..	https://www.axis.com/products/video-encoders
	AXIS CAMERA STATION S11	AXIS Camera Station S11 Recorder Series is a family of out-of-the-box, ready-to-use recording solutions designed to deliver reliable high-definition surveillance. These easy-to-install solutions include AXIS Camera Station licenses for mid-sized installations, so you have everything you need to help ensure every customer installation is trouble-free.	https://www.axis.com/products/axis-s11-series

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	AXIS CAMERA STATION S22	<p>AXIS Camera Station S22 Appliance Series is a family of all-in-one recording solutions with integrated PoE switch designed to deliver reliable high-definition surveillance. These easy-to-install recorders with up to 24 channels and flexible storage options, come with AXIS Camera Station licenses, and are preconfigured with all necessary software to minimize installation time.</p>	https://www.axis.com/products/axis-s22-series

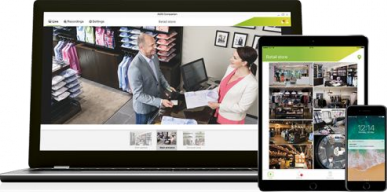

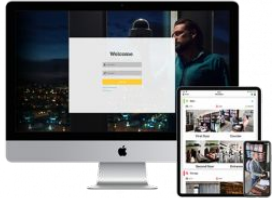

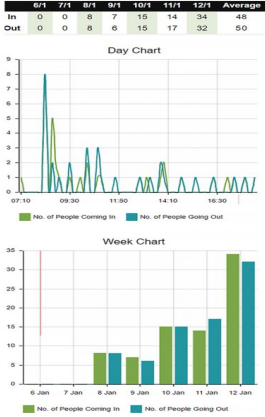

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	AXIS COMPANION	AXIS Companion video management software is simple to set up. And even simpler to use. Not only that, it gives you effortless control from anywhere.	https://www.axis.com/products/axis-companion/overview
	AXIS CAMERA STATION	AXIS Camera Station is a video management software for surveillance specially developed for small and midsize installations. Retail stores, hotels, schools and manufacturing industries are just some of the companies that enjoy full control and protection of their premises and can quickly take care of incidents.	https://www.axis.com/products/axis-camera-station/overview

They have a solutions for indoor, outdoor and day/high applications.	https://www.samsung-security.com/

SURVEILLANCE & MONITORING

CAMERAS

AXIS

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	FIXED BOX CAMERAS	Fixed box cameras from Axis send a powerful message of deterrence to potential offenders: Think twice. We're watching. That's because they provide a clearly visible, fixed angle of view, making it easy to see exactly where they're pointing and allowing you to record a precisely defined area.	https://www.axis.com/products/fixed-box-cameras
	PANORAMIC CAMERAS	Panoramic cameras give you wide-area coverage with just one camera. You can use them to monitor activities and detect incidents in large areas, track the flow of people, and improve area management. And because just one camera plays the role of many, your installation and system costs are kept lower.	https://www.axis.com/technologies/panoramic-cameras

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	POSITIONING CAMERAS	<p>Positioning cameras from Axis deliver the most comprehensive field-of-view possible: mounted on wall, poles or columns, they provide a panoramic view of 360° and a ground-to-sky view of 135°.</p>	https://www.axis.com/products/positioning-cameras
	SPECIALITY CAMERA	<p>Speciality Cameras are elegant and discreet cameras for surveillance in elevators, or maybe in security areas like psychiatric wards or correctional facilities.</p>	https://www.axis.com/specialty-cameras
	THERMAL CAMERAS	<p>Thermal cameras create images based on the heat that always radiates from any object, vehicle or person.</p> <p>A thermal camera is less sensitive to problems with light conditions, such as shadows, backlight, darkness and even camouflaged objects.</p>	https://www.axis.com/products/thermal-cameras

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	ONBOARD CAMERAS	Mobile surveillance comes with its own unique set of requirements and challenges: limited physical space, extreme shock and vibration, rapidly shifting light conditions, minimal storage space, and more. Which is why Axis onboard cameras are specifically engineered to live up to all of that and more	https://www.axis.com/products/onboard-cameras
	EXPLOSION-PROTECTED CAMERAS	Explosion-protected cameras from Axis bring 30+ years of Axis network-video experience to the kinds of explosion-protected cameras and accessories you need for your hazardous areas. They're certified for explosion-prone applications according to all applicable international standards, of course.	https://www.axis.com/products/explosion-protected-cameras

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	FIXED BULLET CAMERAS	Fully-featured fixed bullet cameras from Axis are ready to go right out of the box and at a great price. With their small, slim design, they look great in any environment. And built-in IR illumination and high-resolution video quality, mean they do a great job at helping you protect your premises, indoor or out and around the clock.	https://www.axis.com/products/fixed-bullet-cameras
	FIXED DOME CAMERAS	Fixed dome cameras from Axis are compact cameras with a dome casing. They fit unobtrusively into any setting. Their dome casings, which protect against redirection, defocusing and impact, also disguise which way the cameras are pointing.	https://www.axis.com/products/fixed-dome-cameras

ACCESS CONTROL AND POS

AXIS

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	NETWORK DOOR CONTROLLERS	Axis network door controllers give you a secure and efficient way to control access to your premises. They let you be absolutely sure that only people who have permission are allowed to enter.	https://www.axis.com/products/network-door-controllers
	NETWORK DOOR STATIONS	Axis Network Door Stations combine video surveillance, two-way communication and remote entry control in a single device. They're ideal for installation at entrances where many known and unknown visitors pass through on a regular basis. Door stations can also be used as intercom help points or emergency phones within a larger area like a city, park, or university campus.	https://www.axis.com/products/access-control/network-door-stations
	CARD READERS -AXIS A4010-E READER WITHOUT KEYPAD -AXIS A4011-E READER	As a result of a joint cooperation between Axis and ASSA Abloy we offer card readers designed to perfectly match AXIS A1001 Network Door Controller.	https://www.axis.com/products/card-readers

AXIS / Access Control and POS

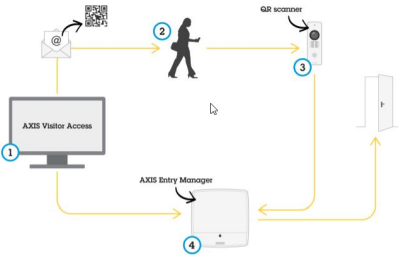

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	NETWORK I/O RELAY AXIS A9161 AXIS A9188	Axis network I/O relay modules let you extend the functionality of any Axis product. They are particularly useful for integrating AXIS A1001 Network Door Controller with other systems in your building. The modules can also be integrated with other facility systems.	https://www.axis.com/products/access-control/io-relay-modules
	MOBILE ACCESS CONTROL	Our mobile access control solutions deliver the high levels of security and privacy protection. They ensure you send encrypted data as well as protect identity data throughout the lifecycle of the mobile credential.	https://www.axis.com/solutions-by-application/mobile-access-control
 <p>The diagram illustrates the workflow for Axis Visitor Access. It shows a computer monitor labeled 'AXIS Visitor Access' (1) connected to an 'AXIS Entry Manager' (4). A person (2) is shown holding a QR code, which is scanned by a 'QR scanner' (3). The QR scanner is connected to the 'AXIS Entry Manager' (4). The 'AXIS Entry Manager' (4) is also connected to a door lock (5). The QR code is also shown being scanned by the 'QR scanner' (3).</p>	AXIS VISITOR ACCESS	AXIS Visitor Access is an add-on application for AXIS Entry Manager that makes it easy for small sites to grant visitors access using a QR Code as a credential. It lets people independently enter your premises and move through accessible areas, while allowing you to keep track of who is present at any given moment.	https://www.axis.com/products/axis-v-visitor-access

IMAGE	PRODUCT NAME	DESCRIPTION	LINK
	DETECTORS AXIS D2050-VE NETWORK RADAR DETECTORS	Designed as a complement to your video surveillance system, Network Radar Detector uses advanced radar technology and intelligent algorithms to detect trespassers who may have breached your first line of defense to enter your premises. And it does it accurately, minimizing false alarms – in any weather and at any time of the day or night.	https://www.axis.com/products/detectors
